

Corporate Overview

Innosoft is a **mature SDB** with proven qualifications in Health IT services and solutions **since 2001**. Our core portfolio of Health IT digital service competencies includes **80+ staff** that support enterprise systems development and program management across **U.S. Federal, State, and Commercial clients**. Innosoft has developed a deep competency in **Medicare, Medicaid, and Marketplace** programs through implementation of several key **Federal and State based Health Insurance Exchange systems** (ACA/Obamacare). We offer small business **competitiveness and agility** with large business experience, capabilities, and solutions.

Health IT Digital Services

Business Process Engineering

- Lifecycles (Agile, DevSecOps, Waterfall)
- Continuous QA & Process Improvement
- BPM, CRM, SaaS Low-code Implementation

Big Data & Analytics

- Database Administration & Performance
- Modern BI Self-Service & Collaboration
- Big Data Lakes & IoT Data Warehousing
- In-memory, Grid & GIS Processing
- Cognitive Data Science & Visualization

Cyber Security

- Government Certification & Accreditation
- Vulnerability & Threat Assessment
- Information Architecture and Encryption
- Role-based Identity & Access Management

Cloud Computing

- On-prem, Cloud & Hybrid Administration
- FISMA & FedRAMP Compliant Hosting
- Data Center Migration & Modernization

Mobile & Web Development

- Technology Stacks (MEAN, J2EE, LAMP)
- Universal Platform App Development
- Responsive, Human-Centered Designs
- Accessibility & UX Industry Compliance
- Microservices, SOA, API & Interoperability

Data Governance

- Data Design & Exchange Standards
- Data Extraction & Integration (ETL/ELT)
- Master Data Management & Lineage
- Enterprise Data Model, Integrity & Privacy

Program Management

- Scaled Lean Portfolio Management
- Independent Verification & Validation
- Strategic Planning & Consulting
- Instructional Training Design & Delivery
