### **54151S Labor Category Descriptions**

#### **Application Architect**

***Minimum/General Experience:*** Four (4) years of experience designing and implementing application architecture solutions.

***Functional Responsibility:*** Develops and documents application architecture solutions focused on specific applications or suites of applications. Prepares architecture to meet functional and non-functional requirements. Creates architectural blueprints and technical documentation. Collaborates with stakeholders to ensure architecture solutions align with business objectives. Provides technical leadership and guidance to development teams. Develops and maintains high standards in application engineering (e.g., Component reuse, Automated testing, CI/CD, Secure coding, etc.). Evaluates and recommend technologies for application lifecycle. Supports other architects as needed.

***Minimum Education:*** Bachelor's Degree.

#### **Application Developer I**

***Minimum/General Experience:*** Two (2) years of experience developing and maintaining software applications.
